Famous B Street Controversy Carried Into Court.

TEMPORARY INJUNCTION OUT

Lawyers for the Corporation Procure a Restraining Order Forbidding the Commissioners from Interfering with the Street-Vigorous Fight to Be Made by Both Parties.

Chief Justice Bingham to-day granted a temporary injunction forbidding the Comoners to interfere with the use of half of B street, between Seventh and Ninth, by the Washington Market Company. This action was upon motion of Gen. Wm. Birney, who, as attorney for the company, this morning filed suit in equity to protect its claims upon the strip of land named. The restraining order is made re-

named. The restraining order is made re-turnable November 16.

The company further asks that the true line of the center of B street north, be-tween Seventh and Ninth streets, behind Center Market, as it existed when the com-pany's charter was granted on May 20, 1870, be determined by judicial inquiry; further, that the relation of this line to the south wall of the market building be estab-lished.

It is also desired that the court shall It is also desired that the court shall

enjoin the Commissioners from beginning any proceedings against produce dealers or others for occupying the space with wagons or stands under the authority of he company.

The bill states that the width of B street

the bill states that the width of B street is 99 feet, and as the north line of that street was the south line of reservation 7 the middle of the street must be 49 feet 6 inches south of the south line of the reservation. No valid legislation has changed the width of B street, and the limits, therefore, must be the same as when the charter was granted.

USED SINCE 1802. A city ordnance of October 6, 1802, it is stated, established Center Market on the south side of Pennsylvania avenue, between Seventh and Ninth. From then to now the space has been used for market purposes. The market grounds extended from the Avenue to the north line of the canal while it existed, and this line became the middle line of B street. Stands and wagons have always occupied the north half of the street.

nair of the street.

The original survey by Nicholas King, under order of the Commissioners, made June 30, 1794, and the approval of President Washington on March 2, 1797, are cited as authority supporting the company's claims as on the corporation laws of 1833.

On May 27, 1857, a city ordnance was on May 27, 1857, a cry ornance was passed applying to the spaces where market houses were standing and applying also to fifteen feet of the avenues, measuring from the curb line of the streets on which the markets aburted. This ordnance

which the markets abutted. This ordnance is still in force, except as affected by the company's charter.

On May 9, 1860, Congress ceded the very space in dispute to the corporationn of Washington, on condition that a market house be creeted there within two years. No house was erected, but the legislation, it is claimed, shows the Government policy to give the space to market uses.

Under the grants to it the company says it has erected costly buildings, and these are believed to be clearly within its rights as they are wholly north of the middle line of B street.

After citing the Instructions by the Com-missioners to the police on November 2 to prevent the occupancy of the sidewalk and roadway on the north side of B, between Seventh and Ninth, the bills ay sno such order has been issued against markets under the control of the District. Wagous and stands are allowed to occupy the streets about

never been questioned by the local gov-ernment till now. As there is no official ernment this now. As there is no official survey of the ground and no notice has been given to the company, the proposed arrests will be contrary to law.

The effect, however, upon the company's business would still be disastrous. The

Interesting Ceremony in Front of the Royal Castle at Berlin.

Emperor William Tells Recruits What an Honor It Is to Wear the King's Coat and Serve in His Guards.

Berlin, Nov. 7. - The ceremony of swearing in a large number of recruits to be attached to the Berlin, Spandau, Lichterfelde and Charlottenburg garrisons took place this

morning. The recruits were assembled at 10:45 o'clock in front of the castle, forming an open square facing an altar decorated with military emblems, flagstaffs, etc., and flanked with cannons around which were wound leaves of ivy.

All of the soldiers were on foot and with-

out arms, but were in grand parade dress. The emperor rode from the castle gate at 11 o'clock, followed by all the colors of the Gardes Du Corps with a band of music, into the square. As he entered the square the emperor sa-

luted the soldiers by brigades with "good morning, recruits," the brigades answering, "good morning, your Majesty."

Ground in Southwest in Dispute.

Government Lays Claim to the Parcel, Although Mr. Luchs Has Had Possession Many Years.

A suit full of old documentary evidence and accompanied with much research and labor, is being argued before Chief Justice Bingham by Assistant District Attorney C. H. Armes. It was taken up yesterday morning, and sets up a claim by the ger eral government to the ownership of 10,000 square feet of ground at the corner of First and N streets southwest.

The parcel is known as square west of square 650. It is bounded on the west by James Creek Canal, on the east by First street west, and on the south by N street Canal street extended would run through it. Many years ago the property was taken possession of and passed into the hands of Mr. Leopold Luchs. It now has upon it a frame building, occupied as a store and a traine building, occupied as store and a residence. Although in possession, Ma. Luchs, who is assessed for over \$20,000 on other property in the District, does not ap-pear to be assessed for this at all. Assessor Trimble, when asked about this

feature of the matter, said he supposed the title stood in such shape that it would not be assessed to Mr. Luchs. It was prob-ably considered by the assessors as govrument property.

DECLINE AND RECOVERY. Rumors of Gold Shipments Have a
Depressing Effect. New York, Nov. 7.—The decline of 1-4 to 3-4 per cent in the active stocks at the opening was due to an advance in the posted rates of sterling exchange of 1-2c to 4.88 1-2 and 4.90.

This revived the talk of gold exports owest for a long time past. It was a

rumored that the reorganization plan will provide for a heavy cash assessment on the junior securities.

It was noticeable, however, that the market showed more resisting power than of late, and toward 11 o'clock the room traders started in to bring about a rally on the shorts. They were successful efforts, and prices recovered 1-4 to 1-2 per

cent, the industrials leading Washington Stock Exchange.
